What is an outdoor telecom enclosure?

The outdoor telecom enclosures, which are also referred to as telecommunications cabinets, are fully enclosed cabinets that help protect electrical cabling and other equipment from potentially damaging environments. Such damage can be caused by dust, rain, ice, and external heat. What do you need to know about outdoor telecom enclosures?

What is a telecommunications enclosure?

These telecommunications enclosures are constructed with robust materials such as galvanized iron, aluminum, or stainless steel to ensure durability. The market for outdoor telecom cabinets was valued at USD 5.1 billion in 2024 and is projected to reach USD 8.6 billion by 2033.

Why do telecommunications companies need a custom enclosure?

Telecommunications companies rely on custom and standard NEMA-rated electrical boxes to protect their sensitive equipment. Custom enclosures are often needed because installers constantly struggle to adapt off-the-shelf products to unusual requirements. Why Choose Bison ProFab?
