How does surge arrest help a backup data centre?

Surge Arrest solves the problem by offering a large selection of products and services that increase availability and efficiency. As more employees and clients rely on a connection to valuable data, it is becoming increasingly crucial that a backup data centre has a power supply that is responsive, powerful, energy-efficient, and cost-effective.

Why do you need a UPS battery cabinet?

UPS battery cabinets also help balance power consumption by providing stored energy during peak demand periods, reducing strain on both the UPS and the electrical grid. Together, a UPS and its connected battery cabinet form a reliable, high-performance power protection system for industrial and commercial applications.

What is a battery cabinet & how does it work?

Battery cabinets play a vital role in how efficiently your facility manages and distributes backup power. When integrated with a UPS system, the batteries within these cabinets store energy and automatically discharge when a power disruption occurs. This seamless transition ensures continuous operation without interruption or data loss.

Should you trust surge arrest for your critical power & cooling needs?

Trust Surge Arrest for your Critical Power and Cooling Needs. While there have been huge advancements in power and cooling technology throughout the past decades, there are still vulnerabilities and blind spots that can greatly impact your data centre.

The Vertiv(TM) EnergyCore Li5 and Li7 battery systems deliver high-density, lithium-ion energy storage designed for modern data centers. Purpose-built for critical backup and AI compute loads, they ...

Please note that Moodle is only available to faculty members connected to the Purchase College network, either from on-campus or remotely via OpenVPN. Access to Moodle will remain available ...

At Purchase College, the mix of professional conservatory training in the visual and performing arts with rigorous programs in the sciences, humanities, and liberal arts produces a unique kind of campus ...
