This autumn, the Battery Energy Storage System (BESS) will be connected to the Latvian electricity transmission system, contributing. The total project investments amount to EUR7 million.

Latvian energy storage projects are gaining momentum as the country accelerates its transition to renewable energy. This article explores key players, emerging technologies, and market trends ...

Hanersun has announced the commissioning of a 1.15MWh commercial energy storage project in the Latvian capital Riga. The project, featuring five units of the company's HNESS 230-L ...

Looking to 2030, Riga plans to deploy liquid air storage - essentially bottling winter cold for summer AC use. It's like making snowballs in July, but for real energy savings.

Growing expertise in hydrogen pilots, energy storage, maritime digitalisation and smart city systems. Strong engineering and manufacturing capabilities supporting EV components, electronics, power ...

Summary: Riga's cutting-edge energy storage power plant is transforming how the Baltic region manages renewable energy. This article explores its technical specs, real-world applications, and ...

With EU directives pushing for 45% renewable integration by 2030, the Baltic state faces a make-or-break moment. Enter energy storage containers - the Swiss Army knife of modern power management.

As Europe accelerates its transition to renewable energy, the Riga energy storage project has emerged as a pivotal initiative. This large-scale battery storage system is designed to stabilize Latvia's power ...

cost-effective and superior storage solutions. Based on advanced battery technology, we provide the most reliable energy storage solution - from analysing the technical challenge, to designing flexible ...

Riga modern energy storage equipment manufacturing

ASOTO OÜ is an innovative company registered in Estonia with a factory and warehouse located in Riga, Latvia. ASOTO OÜ primarily designs and produces bespoke gas-powered plug & play power ...
