Is IP54 suitable for outdoor applications?

IP54, just like our other IP enclosures, is suitable for outdoor applications because it is protected against low-pressure water sprays from any direction. However, keep in mind that these enclosures are not entirely dust-tight and waterproof, so very dusty or underwater environments may be too harsh for them.

Can a custom enclosure meet the IP54 standard?

If you are looking for a custom enclosure that meets the IP54 standard, our professional designing and development team can help you a lot. Metal finishes can be customized including aluminum alloys, stainless steel, galvanized steel, and carbon steel, to meet your application requirements.

What is a stainless steel IP54 enclosure?

Stainless Steel IP54 Enclosure KDM manufactured IP54 enclosure to provide top-quality, easily customized cabinets that will perform well in your application. At KDM, our range of IP54 enclosures features a variety of different materials such as aluminum, carbon steel, and stainless steel.

What is KDM IP54 enclosure?

KDM IP54 enclosure has a high level of protection against particles such as dirt, dust, oil, and other non-corrosive material. Also protects from voltage and moving parts for people who come in contact with the enclosure. Not just that, IP54 adds protection from splashing of water against the machine from any direction.
