 What are Belden XHS networking and switch cabinets?

Belden's XHS Series of Networking and Switch Cabinets is designed to support high load capacities and proper airflow management. The cabinets offer a modular and scalable system that adapts to changing requirements for hosting multiple generations of IT equipment.

 What is a network rack & cabinet?

Network Racks and Cabinets are essential for any network. Cabinets are used for storing routers,patch panels,switches and a wide variety of networking equipment and accessories. Network cabinets support large,modular network switches by providing additional space for cable management and side-to-side airflow solutions.

 What is a network cabinet?

Networking cabinets tend to have a wider footprint with additional interior space along both sides for cable management. Inside of network cabinets allows easy access to cables and equipment and may have removable doors and/or side panels. Cables can be organized with cable management accessories in the front or back of the cabinets.
