The microgrid at QSE's factory in Doha will comprise a mix of energy sources -- the local grid, solar panels, battery storage, back-up generators and cooling system.

In Qatar's context, where solar installations feed into both central and local distribution grids, these inverter features stabilise grid voltage and frequency even during variable solar radiance.

Home solar panels are rapidly becoming mainstream. We'll help you decide if a home solar panel system is right for you.

Solar energy is radiation from the Sun that is capable of producing heat, causing chemical reactions, or generating electricity. The total amount of solar energy incident on Earth is ...

To make up for Qatar's space constraints, the company plans to install solar panels on redundant surfaces such as roofs of power stations and water reservoirs, thereby utilizing existing ...
