The choice of the ideal storage method to be used depends on several factors: the amount of energy or power to be stored (small-scale or large-scale), the time for which this stored energy is required to be ...

Sophia Energy Storage Project 2025 SOPHIA is an EU-funded Horizon Europe project that aims to implement advanced digital solutions in end-of-life solar panels, involving the full value chain in order ...

SophiA"s multifunctional systems will use photovoltaic panels, solar thermal modules, water purification and natural low global warming potential (GWP) refrigerants in a cascade ...

Sophia Haussener is an Associate Professor heading the Laboratory of Renewable Energy Science and Engineering at the Ecole Polytechnique Fédérale de Lausanne (EPFL). Her current research is ...

Developers plan to build 4.4 GW of new natural gas-fired capacity in the United States during 2025: 50% from simple-cycle combustion turbines and 36% from combined-cycle power blocks.

SOPHIA is an EU-funded Horizon Europe project that aims to implement advanced digital solutions in end-of-life solar panels, involving the full value chain in order to increase their current reuse, repair ...

In April 2025, GSL Energy completed a 60 kWh wall-mounted home energy storage project in the UK, enabling customers to achieve energy independence and charge electric vehicles, with an estimated ...
