UAE-based developer AMEA power and the government of Tunisia have commissioned the country's largest solar project in Kairouan. The 120 MW project is expected to generate ...

Tunisia is accelerating its energy transition by awarding 4 solar photovoltaic projects totaling 498 MW to reduce import dependency and promote renewable energy. Faced with growing ...

In 2010, Tunisia launched the Prosol Elec program to promote the installation of solar panels on roofs connected to the low-voltage grid through subsidies and loans.

Set to generate 222 GWh of clean energy annually by late-2025, a 120 MW solar plant in Metbassta, Kairouan, will mitigate over 100,000 tons of CO2 emissions per year while reducing ...

Tunisia has awarded four new solar power projects to international companies for the production of 500 megawatts of electricity as part of a drive to expand the share of renewable energy ...

The Government of Tunisia is taking steps to diversify its energy generation mix by bringing on hydropower and solar energy.

Through June 2023, Tunisia had about 565 MW of installed renewable energy capacity of which 240 MW was wind power, 263 MW solar power, and 62 MW of hydroelectric power, ...

Self-generation is growing as businesses and households adopt solar. The Ministry estimates nearly 400 MW of low-voltage PV capacity installed, with 70 MW operational, highlighting ...

French renewable power producer Voltalia SA (EPA:VL TSA) has been selected by the Tunisian government to develop a 132-MW solar project in the Gabes region of south-eastern ...

Tunisia installs solar power generation system

TUNIS, Dec. 17 (Xinhua) -- A solar photovoltaic power station built by Chinese companies was inaugurated on Tuesday in central Tunisia's Kairouan province.
