What is an ip66 waterproof enclosure?

IP66-rated enclosures are dust-tight and provide a strong level of indoor-outdoor protection. Boxes that qualify for this rating will prevent ingress of water directed at high pressure. Typically, IP66 waterproof enclosures are used in washdown and outdoor applications, such as factories, rooftops, solar installations, and agricultural settings.

What is an IP66 electrical enclosure?

IP66 electrical enclosures are equivalent to NEMA 4 and NEMA 4X enclosures. International Protection (IP) standards are used to designate the protective capacity of an electrical enclosure. The two-digit code shows the protection against particles (the first digit) and water (the second digit).

Are IP66 enclosures the same as NEMA?

While the IEC is associated with the European Union, its standards are widely adopted globally, and manufacturers who sell globally often use the standards. They are similar to NEMA enclosure protection ratings published by NEMA in North America. Shop IP66 enclosures.

Does bison profab manufacture IP66 electrical enclosures?

Bison ProFab is approved to manufacture IP66 Electrical Enclosures that are tested and certified by Intertek (a third party testing agency). IP66 electrical enclosures are equivalent to NEMA 4 and NEMA 4X enclosures. International Protection (IP) standards are used to designate the protective capacity of an electrical enclosure.

With 20 years of experience, our expert staff has the capability to design and manufacture your enclosure quickly, to the standards required for IP66 enclosures.
